[Extract from the Lancet, Dec 22, 1866.

LIQ CARBONIS DETERGENS—We are very sceptical of the

value of a remedy, and it was in a spirit of scepticism

that we tried the liq. carbonis detergens. It is repre-

sented to be a concentrated alcoholic solution of the

constituents of coal tar, and to contain all the active

ingredients of the tar, to wit, benzine, naphthalene, and phenic

acid. The addition of water, with agitation, makes a

durable emulsion, in which the tar remains in a state

of fine suspension, almost equivalent to solution. Our ther-

apeutic experience of the preparation is very satisfactory

and we have seen it succeed in a great number of cases

of skin diseases, in which the tar remains in a state

Death of Sir Frederick Bruce.

The telegraph announces the death of Sir Frederick Bruce, the British Minister at Washington. No particulars are given, and the announcement is made in an indefinite way, as though the operator below took it for granted that the melancholy circumstance had been previously announced here. From the wording of the despatch, however, there is no doubt in our mind that the great diplomatist is no more. The illness to which Sir Frederick succumbed must have been of brief duration, for it is not over a month since we heard that he was rusticated at Auburn, in the State of New York, in company with Mr Seward. Sir Frederick Bruce succeeded Lord Lyons, as Minister at Washington, some two years ago. He was a gentleman of kind and amiable dispositions, possessed great ability, and was a universal favorite with Americans.

English and Continental Echoes.

The French and Prussian journals are quarrelling merrily over their international relations. A report had been spread that the French Government had forwarded a despatch to Berlin advocating the claim of Denmark to North Schleswig. This the *Moniteur* denied. Thereupon the *North German Gazette* affirmed that a note had been read, but not left, and the French papers quizzed the *Moniteur*. It is now stated officially that a note was sent to the French Charge d'Affaires, and was read by him to the Prussian Minister without instructions, so that the *Moniteur* is technically in the right. The papers, however, take the opportunity of abusing their adversaries, the Prussians declaring that the French shall not interfere in Germany, the French retorting that Prussia is peaceful because if she went to war she would lose all she has acquired. The *Constitutionnel* has been directed to explain that the two Cabinets are not hostile, and the order of the day in Paris appears to be "no war till next year." It is believed by well informed persons, however, that if the Grand Duke, as rumoured, surrenders Baden to Prussia, war will be immediately inevitable. The Duke of Cambridge has finally passed judgment upon the Simla scandal. In a well written but excessively lengthy despatch his Royal Highness decides that the extra duties performed by aides-de-camp in India cannot be considered "military duties involving military subordination;" that the guilt or innocence of Captain Jervis—as to the pickles—is, at least, doubtful; that he was not guilty of insubordination in declining to furnish his books; that the recommendation to mercy ought either to have been attended to, or the entire case referred home for final decision. His Royal Highness considers that the original trial of Captain Jervis was "unadvisable and inexpedient," declares the orders to the staff improper and unlike any he has ever seen, suggests that Sir W. Mansfield might have behaved in a "more conciliatory" manner, and regrets that he did not follow the "proper and judicious" course of personal explanation. As to the trial, his Royal Highness regrets that Sir W. Mansfield "allowed his better judgment to be overruled," and declares that his remarks on the court-martial have a "tendency to weaken the independence of courts-martial," to bring contempt on military tribunals, and to affect the discipline of the Army in a very material degree. Lord Derby, in the debate on the Commons' amendments, took occasion to give an odd little rap to the Commons. It seems that when the Managers of the two Houses met in conference, the Lords sat copped and the Commons stand uncovered. The Commons think that undignified, and now, therefore, always send their paper of "Reasons," to the Upper House by clerk. Lord Derby thinks this as ridiculous as if a baron refused an invitation because an earl would go down to dinner before him. We regret to notice the death of Mrs Austin, probably the best translator from German into English

ever known in literature. She had a faculty quite special to herself of making Germans talk as they do talk, and yet as they would have talked had they thought in English. She will be greatly missed by a circle of friends, for whom for years she held a salon which in some years approached the best French examples. The Czar has abolished a strange custom recently described by our Russian correspondent. The cure of souls in Russia has for years been hereditary. The son of a priest becomes a priest, or if he has only daughters, the eldest conveys the parish to her husband. Of course the priest is as little of a pastor as is well possible, but he is much linked with the peasantry, and the government, to improve the character and diminish the popularity of the priesthood, have abolished its hereditary character. Henceforward the best candidate is to be appointed, which, as nobody ever takes the office voluntarily, is a satisfactory reform. Sir Stafford Northcote has published his decision on the Orissa report. It is just like Sir Stafford Northcote, very sensible, very official, and very tame. The Viceroy is blamed, Sir Cecil is blamed, the Board of Revenue is blamed, but everybody is blamed gently, except unlucky Colonel Nicholls, chief of the Public Works Department in Orissa, who was less responsible for the province than anybody directly connected with it. Nobody is punished, though everybody is considered guilty, and officers held responsible for not preventing the loss of 600,000 British subjects by starvation are treated more mildly than they would have been if they had expended too many office pen-knives. The order is thoroughly discreditable to its author's sense of responsibility for a people who have on earth no other protector, and who died of starvation without one political riot.

Dominion of Canada.

NEW BRUNSWICK.

The Rev. Mr McDonald, of St. Francis Co, Victoria, was drowned while attempting to cross the River St. John near Fort Kent at a ford. The night was dark, and it would appear that he missed the ford.

Speaker Colfax, Senator Pike, and a party of tourists from the United States lately visited New Brunswick.

The entire community yesterday was deeply pained to hear of the sudden death of John M. Robinson, Esq., Q. C., one of the oldest and most respected members of the Bar, and a highly esteemed citizen.—*St. John Globe*.

Sackville was visited by a very severe storm on Friday last. The dykes were broken down, cattle drowned, and other damage done.

Doctor George E. Day, of this city, offers himself as a Candidate of the representation of the county St. John in the House of Commons.

NOVA SCOTIA.

The Halifax *Sun* says that on Sunday, August 25th, the prisoners in the Provincial Penitentiary in that city, to the number of fifty or sixty, mutinied while at dinner together in the dining-room, on account of the alleged bad quality of their food. The Governor was sent for, and the prisoners presented their plates of food to him, asking him if it was fit food for men to eat. He tasted and replied that it was. On being told by the Governor that he would send for the doctor and have the food inspected, they at once commenced throwing it about in every direction; and followed up their riotous conduct by smashing all the glass and sashes of the dining-room, breaking the reading-desk, tearing the maps, etc. They then went and bellowed furiously. A message was sent to the fort for assistance, and a company of artillery was despatched to the prison, the other troops being absent on service. Meanwhile a portion of the prisoners kept up the work of destruction, and began breaking up the locks of the cells so that they could not be fastened up. To prevent this the Governor fired at them, and wounding one, they all fled from that part of the prison and rushed up stairs, where they continued their work of destruction, throwing down large blocks of granite. They broke the glass and sashes, and fearing that they would break the bars also, several shots were fired in that direction, which drove them from that side to the opposite side below, where they commenced the same work. Here shots were again fired, and several of the prisoners wounded. They then kept under cover, in the cells. On the arrival of the military, the wounded were conveyed to the hospital and the rest locked up.

QUEBEC.

Last night the Baron Falkenberg, the Consul of Sweden and Norway, gave a dinner at the Stadacona Club, in honour of the officers of the corvette Norrköping, now lying in this port. A number of our citizens were invited to meet them and had a pleasant evening.—*Quebec Chronicle*.

The Quebec *Chronicle* suggests that Sir Allan McNab's police bill should again be taken up and passed by Parliament. It provided for the raising of about five hundred men, and the establishment of a force on the Irish Constabulary model.

The bust of Sir Etienne Tache, for the Parliament Buildings, is almost finished, and is said to be a striking likeness.

Prince Edwards Island.

The Charlottetown *Islander* says of the Island Colony of Prince Edward:—"In fact, we are quite prepared to hear from all quarters of the island, that if the Canadians will give us the \$800,000 for the benefit of the tenantry, and allow the annual rate of eighty cents per head, increasing it as the population may increase, the people of the island will hold up their hands for Confederation."

The police were overpowered and the prisoners rescued and carried off in triumph. The city is now quiet, one policeman was killed and several wounded, many rioters were badly wounded; three hundred pounds sterling are offered for the recapture of the prisoners; but they have not yet been found. Many of the rioters were arrested.

NEW YORK, Sept. 19.—A *Tribune* special says Grant disclaims any intention of resignation.

The attempt to purchase St Thomas has failed.

The Plains.

The Indians have notified the contractors of the Kansas Pacific Railroad that it shall not be built beyond Fort Hayes, as they mean war to the knife. Great excitement prevails along the route, and laborers are continually leaving.

NEW YORK, Sept. 16.—The *Herald's* City of Mexico letter, dated August 25th, says there is considerable canvassing and

excitement over the Presidential election. The factions are active, and the opposition are neglecting no opportunity to damage the chances of Juarez. The latter favors making the Mexican Constitution like that of the United States. He also favors allowing the clergy to vote. Having two houses of Congress, the Ministers are to report to the Executive as in this country.

Santa Anna's trial is daily expected. He has the same counsel as Maximilian, and the impression is general that he won't be executed, but that his estates will be confiscated.

The roads are being cleared of banditti. Lorada has surrendered to Corona.

Eastern States.

NEW YORK, Sept. 12.—The *Post's* Washington letter gives the conversation of one of Grant's staff officers with him, concerning Grant's candidacy for Presidency. He said he would not be President if an opportunity offered. He had made as much reputation as he ought to want. The office of President would mar his domestic happiness, and would lose instead of gain him friends.

A private dinner was given to Beauregard last night at the New York Hotel, by about one hundred friends. The General in his speech said the talk about another rebellion was sheer nonsense and utterly impossible. This generation of people should bend its energies again to build up the Union. DELIBERATE SUICIDE OF A BOY TEN YEARS OF AGE.—A despatch from Healdsburg, California, says: Joseph Garnett, a little boy ten years of age, living at Windsor, Sonoma County, committed suicide on last Saturday under the following circumstances: He had sold a stake rope of his father's, who promised him a thrashing if he did not return it. He went to the drug store and in his father's name obtained a bottle of strychnine, saying that it was for the purpose of killing a dog. From there he went to the school house and crawled underneath and swallowed most of the poison. He made a pillow of a mass of paper, folded his arms over his breast and covered his eyes with his cap. In this position he was found dead yesterday afternoon.

INDIAN WHISKY SELLING AND ASSAULT.—A man named Nathan Simpson was charged yesterday at the Police Court with supplying a squaw with a bottle of spirits, and also with assaulting the officer in the discharge of his duty. The Magistrate was not clearly satisfied with the evidence on the first charge; but on the second charge the prisoner was fined \$25 or two months' imprisonment. The officer bore evident marks of having been roughly handled. Charles Fisher appeared to answer a charge of assaulting a squaw. A necessary witness being absent, the prisoner was remanded until Saturday.

INDIAN CLAIMS.—The Red River Norwester of the 13th ult says:—The Indians of many of the interior districts are beginning to be aware of the intended sale of this country by the Hudson's Bay Company, and a great deal of excitement is the consequence. Notwithstanding the assurances of the Hudson's Bay Company employees that such is not the case, they have their doubts, and if the company did really make a sale without consulting them, they would find their trading posts more warm than comfortable when once the Indians came to know of it.

PRECISELY!—Mr Seward remains in the Cabinet to negotiate the exchange of British Columbia for the Alabama claims. So says the telegraph and the point is very finely made indeed; nevertheless, the law of nomenclature beats Mr Seward. British 'Columbia' was predestined to Jonathan; and that's why they called it 'Columbia.' 'Hail Columbia' was written on purpose, and to that ecstatic tune the British 'sister' will fall into line without any Cabinet or any Mr Seward.—S.F. News Letter.

AFFAIRS IN BRITISH COLUMBIA.—British Columbia papers discuss the question of union with the dominion of Canada, a project which is very favorably regarded, but there is a difference of opinion as to whether the proper time for it has yet arrived, and whether this colony may not with a little patience place itself in a position to be admitted into the great British American family with more respect.—Times, August 5th.

THE THEATRE.—Manager Marsh has leased the theatre and is now engaged in putting it in thorough repair for the coming season. The floor of the stage will be relaid, the boxes newly decorated, the whole interior of the house painted and ornamented, and new scenery and curtains provided. The place will be greatly changed for the better after it has passed through the hands of the painter and carpenter.

CONFEDERATION.—A letter has been received from Hon Mr Tilly, Minister of Customs in the Canadian Dominion, in which the writer announces his intention of pressing for the Confederation of this colony with the Dominion. This is good news. We hope the efforts of Mr Tilly will be crowned with success, and that the days of the Seymour Administration are few.

SPECIAL NOTICE TO GOVERNMENT OFFICIALS.—The mail steamer will leave for San Francisco at THREE O'CLOCK this afternoon, sharp. We give this timely notice so that despatches that were left behind on the last mail day, as well as those now preparing, may not be again delayed. Remember the hour! Three o'clock, sharp!!!

The notorious Broadhead, the Sheffield trades unionist and murderer, has been re-admitted to fellowship by the Saw Grinders' Union, and some of those in attendance at the meeting described him as "the best man in the trade."

THE YELVERTON CASE.—The House of Lords has decided adversely to Mrs Yelverton's application, and that lady announces in a communication to the Times, 'another seven years' war' against her husband, Major Yelverton.

THE COURT.—The last mosquito having disappeared from the environs of the city of the stumps, the Court designs returning there for the winter. The Sparrowhawk will convey the august party to the favored spot in a few days.

The New Brunswick elections took place yesterday. Much interest is manifested in the result, the question being the endorsement or the rejection of the action of the Confederation delegates.

Sir Morton Peto will retain his seat in Parliament until he is requested to resign. He does this to enable the liberal party of Bristol to agree on a candidate.

Mr Waddington—This gentleman will not leave to-day for Canada. He is detained in consequence of the new phase which the Overland Road question has assumed.

POINT WILSON.—We understand that the U.S. Government are about to purchase Point Wilson, at the mouth of Port Townsend harbour, for the purposes of a fortification.

The annual salaries of the clergy of New York amount to \$501,400.

At Gus Keyser's "Man's Companion" and "IXL"—two choice brands of Tobacco, just received per steamer Active.

A Good Move.—J. BRUNN & CO have moved to their New Store, Corner of Yates and Langley streets, between Wells, Fargo & Co's Express and the Bank of British North America. Our New Corner Store is stocked with new and well selected Custom-made Clothing, Hats, Caps and Gentlemen's Furnishing Goods. Our stock and our prices will benefit all. Greenbacks taken at San Francisco current rates at our new Store, near Wells, Fargo & Co's Express. 1m*

DENTISTRY.—Dr G. W. Oool has arrived in town and will be found at the St. George Hotel, rooms Nos. 22 and 23. Those who desire his services will please call immediately, as his stay in town will not be protracted.

WHEN you feel a cough or bronchial affection creeping on the lungs, take AYER'S CHERRY PECTORAL, and cure it before it becomes incurable.

FRED. PAYNE has removed his Cheap Shaving Shop to the opposite side of Johnson street, just above the Miner's Saloon.

THE PEOPLE'S FRIEND. PERRY DAVIS' VEGETABLE PAIN KILLER. The Greatest Family Medicine of the age. Taken internally, it cures sudden colds, coughs, etc., weak stomach, general debility, dyspepsia or indigestion, cramp and pain in the stomach, bowel complaint, painter's colic, Asiatic cholera, diarrhoea and dysentery. APPLIED EXTERNALLY, cures felons, boils and old sores, severe burns and scalds, cuts, bruises and sprains, swollen joints, ringworm and tetter, broken breasts, frosted feet and chilblains, toothache, pain in the face, neuralgia and rheumatism. IT IS A SURE REMEDY FOR AGUE AND CHILLS AND FEVER.

Imperishable Fragrance.—An among the opera air of the great composers there are some which the public taste instinctively prefers, so among perfumes there are grades of excellence from which the world chooses the rarest and the best. In the United States, the West Indies, Canada, South and Central America, etc., this choice has long since been made. Murray & Langley's Florida Water has no rival among the perfumes of the Western Hemisphere. This once celebrated European toilet-water is scarcely saleable in any market where this refreshing, healthful, delicious and almost insupportable perfume is procurable. It signifies its unrivalled merits as a floral fumigant, it is, when intermixed with water, a fine preservative deodorant.

HOLLOWAY'S OINTMENT AND PILLS.—The worst descriptions of ulcers, the most revolting sores, and the most intense external inflammation yield before this cooling Ointment, when its effect is augmented by the internal administration of Holloway's Pills. In bad "leg" this Ointment has only to be applied for a few days before its beneficial influence is seen over those insidious eruptions which no previous treatment could ease, much less cure. Under its application the pain decreases, the almost bursting skin relaxes, and healthy granulations spring up to displace the old matter, which was hitherto so tormenting. Holloway's Ointment purifies the blood in the neighboring vessels, from which firm and good flesh can alone be formed; it quickens the absorption of effete substances and re-establishes soundness.

Chronic Eruptions, from whatever cause arising, are the most obstinate of external remedies. The greatest belief is in mercury, which it cannot control them. The iodine and bromide of that mineral, as well as corrosive sublimate, all heretofore given for scrofulous and syphilitic eruptions, have been abandoned, and in all parts of this continent physicians are curing the most confirmed and violent chronic eruptions on the skin with Bristol's Sarsaparilla, which acts chemically upon the blood and discharges it. The use of Bristol's Vegetable Pills at the same time with the Sarsaparilla greatly facilitates the removal of all eruptions, pimples, blotches, &c., as they carry off from the system the vitiated matter set free by the Sarsaparilla.

Between Health and the Grave there is but a thin partition, and an who values his life is willing to do their best to prevent disease from breaking it down. Who would it be to say that the first and best remedy can be repelled with Bristol's Sarsaparilla and Pills, a preparation so general and so salutary, so sure and so safe in its action, that while it builds up the constitution and expels its excess, it also builds up the system and braces the constitution of the patient. The use of antiseptic and cathartic vegetable ingredients, at once acts and secures its effect, and the use of the Sarsaparilla, the liver, and the bowels, which can be relied upon under all circumstances in all climates. The idea of a medicine so gently associated with ordinary purgatives, but Bristol's Sarsaparilla and Pills do not produce any such uneasy sensation either in the stomach or the bowels, as many of our countrymen. Need it be said that this is the best home and safe and attractive at present known? They are put up in glass vials and will keep in any climate. In cases of scrofulous, or aggravated impure blood, BRISTOL'S SARSAPARILLA should be used in connection with the Pills.

The best Remedy for Purifying the Blood, strengthening the Nerves, Restoring the Lost Appetite, and inducing Sleep. It is the best preservative against almost any sickness and is perfectly safe. Composed of herbs only, it can be given safely to infants. Full directions in English, French, Spanish, and German, with every necessary precaution. For sale at all the wholesale and retail drug stores and grocers.
